A Debut Novel in a Galaxy-wide Setting
Hundreds of years in the future, we are still exploring, and for Ashanna and those aboard the Cousteau, it is a way of life. A new solar system, three new planets to explore and the possibility of sentient life, is their latest assignment. Half way across the galaxy, a bored network tech begins digging under the shiny veneer of his employer's reputation. How does his annual vacation turn his simple life and that of so many others, upside down? What does this have to do with the discovery of mining in a proscribed sector of the galaxy thousands of light years away? Find out in Sangha, the first book in the Planet Series.
