One very cold winter morning, Pitney Kee Knowles arrives at work and prepares to give a briefing to her management team. Her mind isn't on her presentation because she keeps thinking about the bad weather. To regain focus, she decides to take a ten-minute break to try and forget the nagging questions percolating in her head about the weather.

Before her break is over, Pitney finds herself sitting under a willow tree and sees a strange creature called Weather approaching her. Weather has four different personalities—Spring, Summer, Fall, and Winter—and is the mastermind, guide, and host of the Seasons Banquet. The guests of this banquet will undergo a physical transformation in preparation to inherit their place beyond the confines of the stars.

Pitney's summons to this banquet is the beginning of her transformation and journey to the outer reaches of the universe, where she and others of her kind will find the reason for their existence.
